Sr.Design Manager (Hybrid) UX Practitioner Design Researcher

11+

yrs exp.

As a Senior Design Manager UX (Hybrid), I am highly skilled in leading and managing teams to develop creative solutions that meet business objectives. I love to think that design has this transformational power on people's lives and that puts us with a greater responsibility.

With a passion for design and a focus on user-centred design principles, I have a proven track record of delivering exceptional design solutions across multiple platforms and industries. My journey from design school to a service company and now into a product company allowed me to practice my craft and see the outcome with real user solving their real problems.
